

**SPENCER ENVIRONMENTAL**  
MANAGEMENT SERVICES LTD.

## **Environmental Assessment Biologist**

Spencer Environmental Management Services Ltd. is seeking an experienced field biologist/environmental assessment biologist for its Edmonton office. Candidates must hold a university degree in wildlife biology or a related discipline and be familiar with Alberta landscapes, flora and fauna. Skills in bird identification and breeding bird surveys is essential. Strong scientific writing skills are mandatory and candidates will also have strong interpersonal communication skills.

The successful candidate will partake in the preparation of environmental assessment documents in support of proposed development projects and will conduct field investigations for wildlife and vegetation.

Spencer Environmental is a long-established environmental consulting company that offers its employees an attractive package of financial compensation and benefits.

Applications should be submitted to the attention of Richard Spencer, M.Sc.:
